

Use IT Longer - Conserve resources

Sale to your employees

Create an incentive for your team

Top appliances at special conditions

IT equipment that you retire from the company is lucrative used equipment for your employees. They know and appreciate the benefits of IT equipment from everyday use. In most cases, the devices are relatively new and your employees have the opportunity to acquire a real professional device for a very low price. As a company, you can give your employees a real advantage.

Tax advantage

We take over the sale of your devices to your employees via our webshop in our own name and for our own account. This means that there is no tax disadvantage due to add-backs.

Tested, flawless devices

Every appliance has been thoroughly tested by our specialists and is therefore technically flawless and visually in top condition.

1-year warranty and full consumer protection

All devices sold via the webshop are covered by a 1-year warranty (Gewährleistung) for your employees. As your employees make purchases in our webshop as consumers, all consumer protection regulations and benefits naturally apply to them.

Advice included

We offer sales advice by telephone during office hours if your employees need assistance in selecting the appliances on offer.

Exclusive offer and additional products

In consultation with you and your team, your devices will be offered exclusively to your employees via the web store. Of course, you also have the option of offering additional devices from our stock.
