CC4
Use IT longer – Conserve ressources

Waste disposal

Responsible and legally compliant

Everything from a single source

CC4 seamlessly handles the entire process of disposing of decommissioned IT equipment.

Commercial authorization

CC4 is a commercially authorized waste collector and waste handler according to § 24a AWG 2002, Austria.

Multiple certifications

CC4 continuously undergoes triple ISO certification. In addition to the environmental standard ISO 14001 and the certification for quality management ISO 9001, CC4 is also certified for information security with ISO 27001.

AWG-compliant documentation

The entire disposal process is handled and documented in accordance with the AWG and the Kreislaufwirtschaftsgesetz. In addition, all processes are ISO-certified. We provide all delivery and consignment bills, as well as deletion documents and confirmation of disposal.

Reusable devices

Recyclable appliances are sorted out and reused after certified erasure.

Separation of dangerous devices

We separate hazardous (e.g. TFT screens) from non-hazardous devices and store them separately in a professional manner.

Certified deletion

The delivered goods are certified for erasure (Common Criteria) or destroyed.

Certified waste management companies

After being deleted or destroyed, unusable devices are delivered directly to the disposal companies and disposed of properly. CC4 only hands over to genuine certified disposal and recycling companies.
