Workplace Managed Services Remarketing included

All services from a single source across the entire IT life cycle

Services

IMAC-Services

We offer all IMAC services (install, move, add and change) for the IT workstation lifecycle, tailored to roll out and roll back.

Image refueling

Your new appliances are loaded with the desired software images on our refueling line.

Device return including certified data erasure

At the end of the IT life cycle, use our professional remarketing service to take back, audit and erase your used devices. We offer you Common Criteria and BSI-compliant data erasure for all systems, including transmission of the erasure report.

Remote erasure during the period of use

We carry out remote erasure of devices during their useful life, for example when they are passed on within the company.

Profitable sale of your used appliances

We sell your used equipment at the best prices via our international broker network. A tax-privileged sale to your employees is also possible.

Professional disposal

We dispose of non-recyclable appliances in an environmentally friendly manner in accordance with legal regulations.
