CC4

Use IT longer – Conserve ressources

Our contribution to sustainability
together with our customers

In 2023, the reuse of IT equipment handed over enabled the following ecological impact on the life cycle :

Savings CO2 emissions	Savings Water consumption	Savings Electronic waste
7,028 tons	**1,898 m liters**	**34 tons**

ISO 14040/44 verified calculation model from Frauenhofer Austria Research GmbH
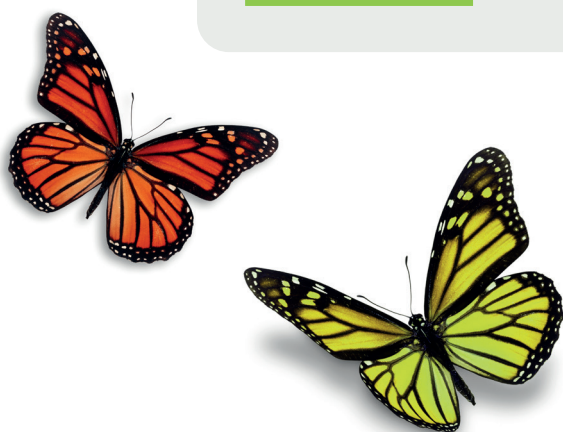

Green Energy - 206 MWh
Climate-neutral data erasure through own PV system

E-Transport - 10.000 km
Climate-neutral collection through our own e-vehicle

TÜV NORD — TÜV NORD CERT GmbH — DIN EN ISO 9001

TÜV NORD — TÜV NORD CERT GmbH — ISO 14001
