IT remarketing with CC4 makes a difference

Used IT hardware collected, erased, sold

Our services range from the collection of used IT hardware, secure storage, standardized processing, certified erasure, sustainable recycling, profitable sale and professional disposal. We also generate revenue for our customers. For good reason, CC4 does everything itself: Only with this 360-degree approach can we guarantee the necessary data security, the best possible sale of the used equipment and the highest proceeds.

Collection
ISO-certified collection of your used IT with our own fleet and trained personnel.

Disposal
Defective and obsolete devices go to Austrian recycling and disposal companies.

Storage
With our logistics centers, we offer the most modern and highly secure storage options.

Sale
We market your recyclable IT for you sustainably and profitably through the following channels:

- exclusive employee sales
- our own webshop
- worldwide network of wholesalers

Auditing
We record the acquired devices in detail. The audit report with all the details is provided.

Erasure
We erase the data on your devices in a certified and legally compliant manner.

Highest standards
We are triple TÜV certified (ISO 27001, ISO 9001, ISO 14001) and NIS2-compliant.
